WORKSHOPS

Roots of Resilience: An Introduction (3 hours)

*Using a Trauma-Lens to Nurture Resilience with Young Children and Families*

**Description:** This workshop is an introduction to nurturing resilience with young children and their families using a trauma-lens. Participants examine trauma, resilience, and how trauma affects children and families. It also offers practical strategies for reflection and application to nurture resilience in ourselves and in those we serve.

**Audience:** professionals serving young children and families (e.g., early childhood teachers and child care providers, parenting educators, home visitors, early intervention special education, and others).

Roots of Resilience: Two-Day Workshop (10 hours)

*Nurturing Children’s Roots of Resilience in Trauma-Responsive Early Care and Education*

**Description:** In this workshop, teachers/providers strengthen their knowledge of trauma and resilience in children’s development, learn to use a trauma-lens, and plan and practice practical strategies for reflection and application to nurture resilience in themselves, children, and families. There is an emphasis on children ages 3-5 years, but the majority of the content and strategies are relevant for working with children from birth through 8 years of age and their families.

**Audience:** Early childhood teachers and child care providers in home-based or center-based programs, including Head Start.
ONLINE COURSE

Roots of Resilience: Teachers Awakening Children’s Healing (Online Course: 30 hours)

Overall Description: This is a 3-part online course that includes activities, readings, videos, case studies, reflections, and applied practices using a workbook. The course is self-paced, but participants also receive support from an instructor at Oregon State University. Participants deepen their knowledge of trauma and resilience in children’s development, learn to use a trauma-lens for observing and assessing children, cultivate partnerships with families and specialists, nurture their own resilience, and strengthen relationships and self-regulation with children impacted by trauma. There is an emphasis on children ages 3-5 years, but the majority of the content and strategies are relevant for working with children from birth through 8 years of age and their families.

Audience: Early childhood teachers and child care providers in home-based or center-based programs, including Head Start.

Online Course:

Part 1
- Trauma and resilience
- How trauma affects development

Part 2
- Identifying children’s needs
- Partnering with families and specialists

Part 3
- Building restorative relationships
- Promoting self-regulation

VIDEO-BASED COACHING

Roots of Resilience: Teachers Awakening Children’s Healing (Coaching: 8 hours)

Web-based Skill Building to Promote Children’s Self-Regulation

Description: This is a 6-session strength-based video coaching program focused on promoting young children’s self-regulation. Participants meet 1-1 with their coach via a secure web platform. Participants film themselves engaging with children for 20 minutes per week during normal daily activities and upload the film to a secure server at Oregon State University. Coaching sessions involve education, discussion, reflection, and review of video clips of the teacher already using effective teacher-child interaction that supports children’s self-regulation development.

Audience: Early childhood teachers and child care providers in home-based or center-based programs, including Head Start, who care for at least some children ages 3-5 years of age.

Coaching:

1) Film yourself with children during normal activities and upload on secure server.
2) Meet online with your coach once a week to view clips of you supporting children’s self-regulation.
3) Coaching focuses on what you’re doing well, and helps you reflect to do it more!
