

# ICHTHYOPLANKTON TAXONOMY & IDENTIFICATION LAB (FW 529)

**Instructor Peter Konstantinidis, PhD**

Ichthyoplankton Taxonomist, Department of Fisheries and Wildlife,  
Oregon State University

6-DAYS COURSE HELD AT OREGONSTATE UNIVERSITY, NASH HALL, CORVALLIS, OR

SUMMER COURSE // JULY 29 to AUGUST 3, 2019

CREDITS // 2

MAX. PARTICIPANTS // 15

COURSE LISTING

<https://beav.es/Z35>

The lab is a 6-days intensive course dedicated to the systematics and identification of larval fishes. The goal is to equip students with a skill set in identification of ichthyoplankton to family level or to a lower taxonomic level. The lab will include daily lectures on taxonomic groups of marine fishes with the focal point on their larval characters.

Students are encouraged to bring unidentified ichthyoplankton samples or mixed species lots to the course to help with their identification.
