## Then:

M.Sc. in Food Science and  
Technology, 2000-2002  
Oregon State University

Panida (June) completed her M. Sc. in Food Science and Technology from Oregon State University. Dr. Jae W. Park served as her advisor. She started the program in Spring 2000 by doing research at the OSU Seafood Laboratory in Astoria. After completing all the required coursework at main campus in Corvallis (Fall 2000 to Spring 2001), she moved back to Astoria to continue doing her thesis at the OSU Seafood Laboratory. She graduated in Spring 2002.

Her research (thesis) during the master's degree mainly focused on gelation properties of surimi with functional ingredients (surimi seafood) under Ohmic heating. Thesis Title: GELATION PROPERTIES OF ALASKA POLLOCK SURIMI WITH FUNCTIONAL INGREDIENTS UNDER OHMIC HEATING

Please use this page to share stories, anecdotes, memories, things you learned from your time with the Surimi Research Group, etc.
