

John Lin

Now:

VP for R/D, QA, & Processing Improvement
Pacific Seafood Group

Email: jlin@pacseafood.com

Dr. John Lin serves as the VP for R/D, quality assurance, and Processing Improvement for Pacific Seafood Group, the largest privately owned, vertically integrated seafood company in the Northern America. With more than 20 years of academia and industry experience, Lin oversees Pacific Seafood's efforts in making continuous products and processes improvements. His contributions to the company include developing state-of-the-art processing technologies to improve product quality, food safety, and processing efficiency while reducing processing wastes.

Lin also is a current board member of the OSU Food Innovation Center and serves on the technical committees of the National Fisheries Institute and Seafood Products Association. He is a co-author for several chapters of *Surimi and Surimi Seafood* and serves as a reviewer for the Journal of Food Science.

Then:

Ph.D in Food Science
1996

John Lin earned a Ph.D. degree in Food Science and Technology from Oregon State University under the mentorship of Dr. Jae W. Park. He completed a postdoctoral fellowship at the University of British Columbia and an MBA from Marylhurst University

Thesis Title: SOLUBILITY AND STRUCTURE OF FISH MYOFIBRILLAR PROTEINS AS AFFECTED BY PROCESSING PARAMETE
