

JOODONG PARK

Now:

Head of Research and
Development center at FYSEE

Email: gosurimi@gmail.com

Joodong Park began working as a Senior Researcher at the CJ Foods R&D center in 2008. After he worked for 10 years at CJ Foods R&D, he joined to FYSEE on April 2018 as a head of R&D center. He is now developing a new seaweed products and surimi related products. Areas of research emphasis include: Seaweed and seaweed products; surimi and surimi seafood; In addition, he is a member of Korea Seaweed Product Codex Organization.

Then:

Ph.D in Food Science & Tech
2004-2008
OSU

Joodong obtained his pH.D. in Food Science in the Department of Food science & Technology at OSU. He was the first student who got C+ in the course work among Dr. Park's all students. Joodong is very proud of that because he obtained Ph.D. at last! He is very thanks to Dr. Park who did not kick him out of Seafood lab and supported until he became a good researcher. Thesis title: CHARACTERIZATION OF MYOSIN, MYOGLOBIN, AND PHOSPHOLIPIDS ISOLATED FROM PACIFIC SARDINE.
