

SAMANAN (SAND) POOWAKANJANA

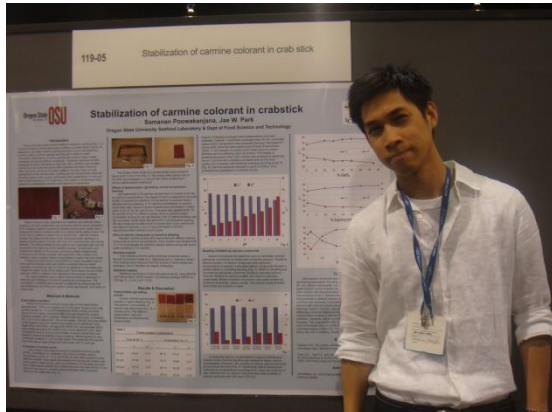

Now: Business Intelligence Analyst (BIA)- Dechmanee Gr.

SanD started his first career in the Middle-East region in July 2013. His seafood processing factory in Oman along with fishing vessels in Arabian Sea harvested approximately 6,000 tns annually for feeding people in South America, Asia, and Europe. Working together with the Oman Government through its state-owned enterprise, SanD completed the construction of the 3 largest seafood factories by 2015 resulting in a sudden rise in daily productivity for Oman. He also successfully raised the awareness of seafood safety and sustainability among the manufactures across the nation. He left Middle-East in June 2018 and returned to Thailand as a Business Intelligence Analyst of Dechmanee group.

Then: PhD in Food Science and Technology 2007-2012

Oregon State University

SanD (The SmartAss of The Golden Era of Surimi Lab) studied the stabilization of carmine colorant in crabstick for his Masters in Food Science. Under the mentorship of Dr. Park and his other committee members. He transferred his Master to a PhD in 2009. Dissertation title: SPECTROSCOPIC AND RHEOLOGICAL CHARACTERIZATION OF SURIMI UNDER VARIOUS HEATING AND CHOPPING CONDITIONS.
