3-months Surimi training
August - October 2015

Poom had joined the 3 months surimi training program in Astoria between August and October 2015. He started from zero experience in surimi knowledge. The picture shows the life during the time at the lab, it was the day that they worked till 5am. Everything was the first time for him, all required skills for the industry had been trained from this lab from drove for 6 hours to get fish, H&G, dewatering, homogenized, worked in cold room. He had a very great time in the lab with a special thanks to Dr. Park and Angee for took care of hi
