## Then:

Visiting Professor  
OSU Seafood Lab

Jin-Soo Kim was a visiting professor from Gyeongsang National University, Korea with his family during 2003-2004 at the OSU Seafood Lab.

At that time, he was at the OSU Seafood Lab doing research on the efficient use of solid by-products from surimi processing (Characterization of Acid-soluble Collagen from Pacific Whiting Surimi Processing/Partial Purified Collagen from Refiner Discharge of Pacific Whiting Surimi Processing) and phosphate (Chemical and Functional Properties of Various Bends of Phosphate Respectively).
