

# TONI MIETHE

## Now:

Retired volunteer, wife,  
mother, grand and great  
grandmother. Loving life!

Since retiring in 2012, Toni hit the ground running with activities and sports with her 16 grandchildren and two great grandchildren. She volunteers with the Coast Pregnancy Clinic, teaches Sunday School, plays ukulele for local senior venues with a group of folks who just love to have fun and play, gardens and travels with her best friend and husband Harley. She occasionally gets together with the folks she worked with and still communicates with some of the past students from the SF Lab. She and Harley have their home in Svensen, about ten miles east of Astoria.

## Then:

Administrative Assistant  
1983-2012  
Clatsop County (Office in  
Seafood Lab)

Toni worked for 29 years with Clatsop County as an Administrative Assistant. The office of the program she worked with rented space in the OSU Seafood Lab where she and the Lab's office manager helped each other cover the front office and phones when one or the other was gone. It was an amazing blessing to have the privilege of being included in the SF Lab family of students and professors. Those years of gatherings, parties, meals and forming relationships were absolutely the best. So many memories were made, so much laughter, so much sharing of cultures, and not a few tears shed when students completed their studies and went back to their countries or secured jobs in the US. It was a rich time never to be forgotten, forever cherished.
