

RECOMMENDATION REPORT

Name: **Rodrigo Marques**Ranch: **EOARC - Burns**Order #: **XXXXXXXX**Received on: **06/15/2018**

Forage Analysis

Sample	Dry Matter (DM)	Crude Protein (CP)		Total Digestible Nutrients (TDN), %	
	As-fed, %	As-fed, %	DM, %	As-fed, %	DM, %
#1	89.5	4.7	5.3	44	49
#2	92.5	8.8	9.5	51	55

Nutritional Limitations

Only deficiencies will be reported. For nutritional requirements, please consult **BEEF003** (attached).

Sample #1

- This forage **does not** provide adequate TDN and CP for replacement heifers during entire gestation and postpartum period.
- This forage **does not** provide adequate TDN and CP for mature cows during entire gestation and postpartum period.

Sample #2

- This forage **does not** provide adequate TDN and CP replacement heifers during post-partum period.

Nutritional Recommendation

Sample #1 - If diets will be based on Sample #1, supplemental feed is required for both replacement heifers and mature cows during gestation and postpartum period.

Sample #2 - If diets will be based on Sample #2, supplemental feed is required for replacement heifers during postpartum period.

For questions related to supplementations programs, please consult your nutritionist or OSU Extension Service (for a list of extension faculty, please visit <http://beefcattle.ans.oregonstate.edu/>).

Recommendations provided are based on the quality of the sample provided and estimated animal requirements. Performance is not guaranteed
